The Jan Gullik Croft

Near to Hallstaberget you will find Jan Gullik - which is a popular location to go to.

From the Söderleden you follow Spannsjövägen. When the gravel road starts you are approximately 1 km away from the right hand side road with a sign for: Jan Gullik, 2 km. From Hallstaberget you get there on skis.

There is a slope, shelter with a hearth, both in the valley and up on top of the hill. The cottage at the top of the sledding hill serves homemade bread, waffles with homemade jams, coffee boiled on the stove, hot dogs with homemade bread, sandwiches, hot sandwiches and lots of good pastries! The cottage is open every weekend from week number 7 up to and including Easter (if there is snow), between noon and 4 PM. During week 10 it is open all week during same hours. Please call for a weather forecast. Often there is a big difference between the weather in Jan Gullik and down in the town.

Call: Britt-Inger Forsberg, for info and booking +4670-328 73 17
